Better Chemistry. Better Business.

Pre-Paint/Conversion Coatings

We can help you optimize your entire pretreatment process, from part prep to waste treatment system, with cleaning, iron phosphating or zirconium and waste treatment options to save you time, money, and energy.

Performance Driven. Customer Focused.

With roots from 1849, Hubbard-Hall's mission is to help manufacturers tackle complex surface finishing and wastewater treatment problems. Combining 6 generations of family leadership, 4 strategically located facilities, and a 99.8% product consistency goal, we develop, service, and supply our line of specialty chemicals for ferrous and nonferrous metals. These include solvent & aqueous cleaners, pretreatment chemistries, functional coatings, corrosion inhibitors, plating & electroless nickel products, as well as chemistry and biologics for wastewater treatment.
