Commodity Trends:

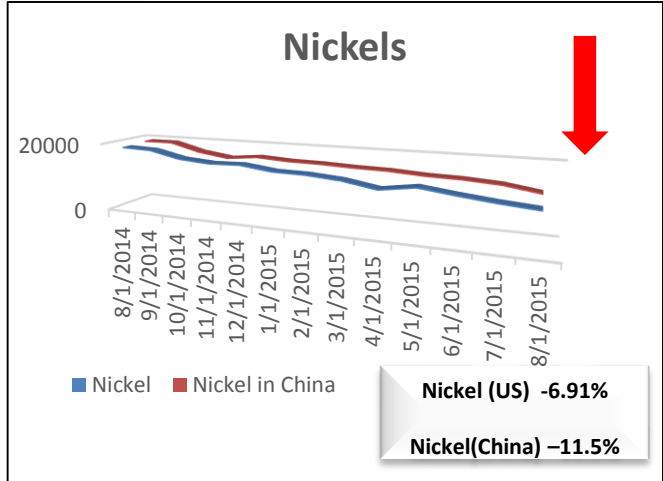

- The U.S. Bureau of Labor Statistics reported that total nonfarm payroll employment increased by 215,000 jobs in July. The BLS said on Friday job gains came in retail trade, health care, professional and technical services, and financial activities. The unemployment rate held at a seven-year-low of 5.3%.
 - The Commerce Department announced that retail sales rose a seasonally adjusted 0.6% from a month earlier, matching economists’ expectations. Spending on items outside cars—a better gauge of everyday consumer behavior—rose 0.4% in July, the third consecutive month of solid gains.
 - The Institute for Supply Management said that its manufacturing index the July fell to 52.7% in July from 53.5% in June. The decline was unexpected. A survey of economists by Market Watch had forecast a 53.7% reading.
 - Autodata Corp. reported that the U.S. auto industry began the second half of the year with a jolt that totaled more than 1.5 million vehicles sold in July, a 5.3 percent increase from the previous year.
 - The National Association of Home Builders/Wells Fargo builder sentiment index released Builder confidence in the U.S. rose one point in August 2015 to a level of 61. This is the highest reading since November 2005. Purchases of new homes are 21.2 percent higher through the first six months of this year than the same period in 2014. Used homes are selling at an annual rate of 5.49 million, the fastest pace since February 2007, according to the National Association of Realtors
