

Commodity Trends:

- The U.S. Bureau of Labor Statistics reported that total nonfarm payroll employment increased by 288,000 jobs in June, significantly more than the 215,000 economists were anticipating .
 - The unemployment rate, which is drawn from a different survey of households, dropped from 6.3% to 6.1% the lowest rate since September 2008.
 - The Commerce Department said Friday that Retail sales climbed 0.2% in June, the smallest gain since January. The latest performance showed consumers again struggling to fire on all cylinders.
 - The Institute for Supply Management (ISM) said the index stood at 55.3 in June, little changed from 55.4 in May. Economists surveyed by The Wall Street Journal had expected the latest PMI to edge up to 55.9.
 - May U.S. auto sales hit 16.9 million annual pace in June, the strongest since July 2006, according to Ward’s Automotive Group. Deliveries at General Motors Co. and Ford, the two largest U.S. automakers, exceeded analysts’ estimates.
 - The National Association of Home Builders/Wells Fargo builder sentiment index released Wednesday rose this month to 53, up four points from a revised reading of 49 in June.
 - Readings above 50 indicate more builders view sales conditions as good, rather than poor. The latest reading is the first above 50 since January, when it was 56.
- The graphs below represent a one year price trend for comparison only and do not reflect end user delivered prices.
 - Additional 1-month trend percentages have been included on each commodity reported.
