Commodity Trends:

- **Jobs Report:** The Bureau of Labor Statistics announced that total Nonfarm businesses added 298,000 jobs in February, significantly above the 189,000 forecast, making this the 3rd best month of gains since 2008. The gains were led by a huge 66,000 increase in construction, the most in 11 years, and 32,000 manufacturing jobs.
- **Retail Sales:** The Commerce Department said that excluding autos and gasoline, U.S. retail sales rose a robust 0.7% last month. E-commerce sales are expected to grow by 8% in 2017, according the National Retail Association.
- **Manufacturing:** The Institute for Supply Management reported that the PMI index rose 1.7 percentage points to 57.7 per cent, the highest reading since August 2014 and well above the consensus estimate among economists, who expected a smaller increase to just 56.1 per cent.
- **U.S. Auto Sales:** US auto sales rose at an annualized rate of 17.58 million in February, according to Autodata Corp. Analysts had estimated that total vehicle sales rose at a rate of 17.7 million, according to Bloomberg.
- **U.S. Home Sales:** The National Association of Realtors reported that the Pending Home Sales Index, decreased 2.8 percent to 106.4 in January from an upwardly revised 109.5 in December 2016. Although last month's index reading is 0.4 percent above last January, it is the lowest since then.

The graphs below represent a one year price trend for comparison only and do not reflect end user delivered prices. Additional 1-month trend percentages have been included on each commodity reported.
