

Better Chemistry. Better Business.

Commodity Trends:

- The U.S. Bureau of Labor Statistics reported that total nonfarm payroll employment increased by 233,000 jobs in April. Jobs in energy, such as oil drillers and coal miners, saw the biggest loss in April. The country’s unemployment rate fell to 5.4%, the lowest since May of 2008.
 - The Commerce Department said Wednesday that retail sales were unchanged last month after rising 1.1 per cent in March. Retail sales have risen just 0.9 per cent over the past 12 months. Consumer spending growth fell to just 1.9 per cent during the first quarter, down sharply from 4.4 per cent in the previous quarter.
 - The Institute for Supply Management said Tuesday its non-manufacturing purchasing managers index came in at 57.8 in April, up from 56.5 in March and better than the 56.3 expected by forecasters surveyed by The Wall Street Journal.
 - Autodata Corp. reported that the U.S.Auto industry sold 1.45 million vehicles last month, up 4.6 percent from a year ago. The seasonally adjusted annual rate rose to 16.5 million, up 450,000 from April 2014.
 - The National Association of Home Builders/Wells Fargo builder sentiment index released Wednesday rose four points to 56 this month, the highest level since January, from a revised reading of 52 in March. The numbers are consistent with the NAHB's forecast for the U.S. housing market to recover at a steady, gradual pace this year.
