Better Chemistry. **Better Business.**

Chemical Applications

Providing solutions to improve your process.

Hubbard-Hall brings hands-on expertise to the intersection of manufacturing and chemistry, creating economic value for every customer we serve.

Our specialty product lines are designed for the following applications:

- **Chemical Polishing**
- **Cleaning**
- **Heat Treatment Salts**
- **Mass Finishing**
- **Metal Coloring**
- **Metal Stripping**
- **Semiconductor**
- **Paint Stripping**
- **Phosphate Coatings**
- **Printed Circuit Boards**
- **Rust Preventative**
- **Wastewater Treatment**
- **Miscellaneous Surface Finishing**

Better Chemistry. **Better Business.**

Chemical Polishing

Laser

Acid and acid peroxide systems to brighten and polish the surface of metals

Cleaning

Aquaease™

High performance cleaners

Emerald

Environmentally friendly maintenance cleaners. Heavy duty yet safer for workers and the environment

Hubtron PB

Powerful, safer precision cleaning solvent. EPA and SNAP approved

Mass Finishing

Aquamill™

Mass finishing products from burnishing to accelerated compounds

Metal Coloring & Antiquing

Black Magic™

Metal coloring solutions to create a decorative, durable black finish or produce a true black oxide conversion

Mi-Tique®

Metal antiquing solutions for natural aged appearance

Metal Stripping

Stripol™

Rapid metal stripping products for electroplated or electroless plated metals

Paint Stripping

AquaStrip

Safely remove most paint films from ferrous and non-ferrous metals.

Phosphate Coatings

Hubfos & Mi-Phos™

Cleaning and phosphating solutions for improved paint adhesion

Printed Circuit Boards

Hallstrip™

Complete line of printed circuit board products

Rust Preventative

MetalGuard®

Aqueous and solvent based corrosion/rust preventatives

Wastewater Treatment

Aquapure™

Wastewater treatment chemicals
