

Screen Wash

Screen Wash is a liquid product formulated to remove screen inks from screens.

Product Advantages

- Nonflammable
- Slow evaporating
- Odorless
- Free of solvents
- Free of chelators
- Safe on aluminum screen frames, stainless steel screens, and synthetic screen fabrics.

Operating Conditions

Concentration	use Screen Wash as received do not dilute
Temperature	room temperature

Immerse the screen into the Screen Wash solution for 60 seconds to 3 minutes; or as long as required for the Screen Wash solution to penetrate and soften the uncured ink.

When the ink is softened remove the screen from the Screen Wash solution and either lightly brush the screen or spray the screen with water to remove the softened ink.

Equipment

Tanks	stainless steel, polyethylene, polypropylene, or any plastic container.
-------	---

Caution

Screen Wash is mildly alkaline, wear rubber or vinyl gloves and goggles when using the Screen Wash. In case of skin contact wash exposed area with clean water. For eye contact, flush eyes with cold water for 15 minutes and immediately contact a physician.
