

Aqastrip™ Fume Seal

Aqastrip Fume Seal is a mineral oil-based product used in paint stripping applications to minimize evaporation from heated paint stripping applications. Additionally, this product reduces the odors emitted from the solution, making the paint stripping processes more accessible for process operators.

Features & Benefits

Minimizes fumes and odors	Easier to use
Reduces evaporation	Longer bath life
Reduces drag out	Longer bath life

Operating Conditions

This product is applied to the top of a prepared, alkaline paint stripping bath to a depth of roughly 1 inch. Parts can be immersed through the Aqastrip Fume Seal and into the bath for stripping. Once parts are removed, allow the solution to drip from the parts back into the bath.

Caution

Protect eyes from solution. In event of contact, flush eyes thoroughly with water and obtain medical
