

Aquapure™ DF

Product Code: 2601007
Revised Date: March 19, 2015

Aquapure™ DF

DESCRIPTION

Aquapure™ DF is a non-silicone defoamer for wastewater treatment was developed to defoam general waste streams or any industrial application where silicone defoamers cannot be tolerated. This wastewater treatment product is mineral oil based. Many municipalities require effluent discharged to sanitary sewers to be foam-free; hence the need for **Aquapure™ DF**. Since **Aquapure™ DF** is so effective, very low concentrations are required.

FEATURES AND BENEFITS

- Low doses typically used
- Non-hazardous
- Easy to pour
- Non-silicone
- Wide application use

TYPICAL APPLICATIONS

- Personal care products
- Metal finishing for use where non silicone is needed

OPERATING CONDITIONS

Concentration range: 10-100 ppm by volume or as required. Start at low concentration and raise until effective.
