Emerald Paint Prep pH Up

Product Code: 2204012
Revised Date: 02/3/2012

Emerald Paint Prep pH Up
(pH Adjuster)

DESCRIPTION

Emerald Paint Prep pH Up is a product specifically designed to adjust the pH of conversion coating solutions as well as the effluent water of a steam wand cleaner line or when neutralizing effluent for disposal. Emerald Paint Prep pH Up is a highly concentrated alkaline product, which will provide good pH control of conversion coatings or discharge water prior to reaching the plant's wastewater department or municipality drain system.

FEATURES AND BENEFITS

- Easily Adjusts pH of Effluent Water or Conversion Coatings
- Highly Concentrated

TYPICAL PROPERTIES

Appearance	Clear Liquid
Foaming Ability	Controlled
Solubility	Excellent
Specific Gravity	1.28-1.30 (water = 1.0)

USING PROCEDURE

For most operations, Emerald Paint Prep pH Up should be used sparingly to raise the pH to obtain the desired parameters. Consult your Hubbard-Hall representative for the optimum operating concentrations.

MATERIAL SAFETY

Emerald Paint Prep pH Up is safe in most system types Consult your Hubbard-Hall representative for instructions that best conform to your production needs.
