Lusterlume NIXI

Lusterlume NIXI is an exceptional liquid cleaner burnishing compound especially formulated for both conventional barrel and vibratory finishing. **Lusterlume NIXI** may be used on most metals such as steel, stainless steel, high nickel alloys, aluminum, copper, and brass. **Lusterlume NIXI** possesses exceptional detergent properties permitting its use on many moderately dirty or oily surfaces.

ADVANTAGES OF LUSTERLUME NIXI

- ❖ Biodegradable, phosphate free, pleasant odor, non-toxic.
- ❖ May be used on most metals. Outstanding on nickel and stainless steel and copper alloys.
- ❖ May be used with all types of media. Does not darken or corrode steel media, even under prolonged storage conditions.
- ❖ May be used in all types of equipment, conventional barrels or vibratory types.
- ❖ Provides excellent cushioning.
- ❖ Leaves no undesirable soap films on the work. Free-rinsing. Work can be plated without any difficulty after rinsing.
- ❖ Concentrated material--low use concentration usually satisfactory
- ❖ Possesses unusual detergent properties. Works well even on many moderately oily surfaces.
- ❖ Low foaming--desirable in vibratory finishing.

PROPERTIES OF LUSTERLUME NIXI

Appearance:	clear, pale yellow liquid
PH:	7.0 to 7.5 (conc.)
Odor:	pleasant aromatic
Specific gravity:	1.023

OPERATING CONDITIONS FOR LUSTERLUME NIXI

Conventional barrels--1/2 to 4 oz/gal concentrate.

Vibratory systems feed to maintain concentration at 1/4 to 4 oz/gal. Aspirator or proportioning devices may be used. Use at room temperature to 110 degrees F. The higher ranges will produce faster results.
