

Rectifier L-2 Concentrate

Product Code: 2231002
Revised Date: 03/21/2006

Rectifier L-2 Concentrate

Liquid Additive For "Activated" Black Magic "Plus" Baths

1. SCOPE

Rectifier L-2 is a liquid concentrate used in "Activated" Black Magic "Plus" and similar baths to control excessive build-up of iron and copper.

2. MATERIALS REQUIRED

Rectifier L-2 Concentrate

3. CONDITIONS FOR USE

Rectifier L-2 is used when iron and/or copper build-up in the hot black oxide solution is such that it plates out on the work (salmon colored copper), or is dragged out and difficult to rinse from the work surfaces (iron oxide). Prior to using **Rectifier L-2**, it is advisable to desludge and skim the bath.

4. RATE OF ADDITION

Rectifier L-2 is used at the rate of 1/2 to 1 fluid ounce per gallon of hot black oxide solution.

CAUTION: **Rectifier L-2** is a water solution and should be added slowly and carefully to the hot black oxide solution to prevent excessive boiling action or eruption of the solution. Protective clothing, including goggles and gloves, should be used during this procedure.

5. DISPOSAL

The solution is biodegradable when buried. Should not be flushed to municipal sewers or public waterways without proper authorization.

6. GENERAL INFORMATION

In the event of skin or eye contact, wash well with water. If ingested, consult a physician.
